INDEPENDENT AUDITORS' REPORT

To the Policyholders of
Town & Country Mutual Insurance Company

We have audited the accompanying financial statements of Town & Country Mutual Insurance Company, which comprise the statement of financial position as at December 31, 2011, and the statements of comprehensive income, policyholders' surplus and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Town & Country Mutual Insurance Company as at December 31, 2011, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

Town & Country Mutual Insurance Company is incorporated under the laws of Ontario and is subject to the Ontario Insurance Act. It is licensed to write property, liability, automobile, accident and sickness, fidelity and boiler and machinery insurance in Ontario. The company's head office is located in Strathroy, Ontario.

The company is subject to rate regulation in the automobile business that it writes. Before automobile insurance rates can be changed, a rate filing is prepared as a combined filing for most Ontario Farm Mutuals by the Farm Mutual Reinsurance Plan Inc. The rate filing must include actuarial justification for rate increases or decreases. All rate filings are approved or denied by the Financial Services Commission of Ontario. Rate regulation may affect the automobile revenues that are earned by the company. The actual impact of rate regulation would depend on the competitive environment at the time.

These financial statements have been authorized for issue by the Board of Directors on February 24, 2012.

BASIS OF PRESENTATION

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (the IASB). This is the first time the the company has prepared its financial statements in accordance with IFRS, having previously prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (Canadian GAAP). Details of how the transition from pre-changeover Canadian GAAP to IFRS has affected the financial position, financial performance and cash flows are disclosed in Note 16.

These financial statements were prepared under the historical cost convention, as modified by the revaluation of financial instruments designated as fair value through profit and loss.

The company's functional and presentation currency is the Canadian dollar. The financial statements are presented in Canadian dollars.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the company's accounting policies. The areas involving a higher degree of judgment and complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

SIGNIFICANT ACCOUNTING POLICIES

INSURANCE CONTRACTS

In accordance with IFRS 4, Insurance Contracts, the company has continued to apply the accounting policies it applied in accordance with pre-changeover Canadian GAAP.

Balances arising from insurance contracts primarily include unearned premiums, provision for unpaid claims and adjustment expenses, reinsurers' share of provision for unpaid claims and adjustment expenses, deferred policy acquisition expenses, and salvage and subrogation recoverable.

(a) PREMIUMS AND UNEARNED PREMIUMS

Premiums written comprise the premiums on contracts incepting in the financial year. Premiums written are stated gross of commission payable to agents and brokers and exclusive of taxes levied on premiums.

The company earns premiums on income evenly over the term of the insurance policy generally using the pro rata method. The portion of the premium related to the unexpired portion of the policy at the end of the fiscal year is reflected in unearned premiums.

(b) REINSURANCE

The company reflects reinsurance balances on the statement of financial position on a gross basis to indicate the extent of credit risk related to reinsurance and its obligations to policyholders and on a net basis in the statement of comprehensive income to indicate the results of its retention of premiums written.

Reinsurance premiums ceded and reinsurance recoveries on losses incurred are recorded as reductions of the respective income and expense accounts. A contingent liability exists with respect to reinsurance ceded which could become a liability of the company in the event that the reinsurer might be unable to meet its obligation under the reinsurance agreements. The company ascertained that no provision is necessary at December 31 for doubtful collection of reinsurance recoveries.

(c) DEFERRED POLICY ACQUISITION EXPENSES

Acquisition costs are comprised of agents' commissions. These costs are deferred and amortized over the terms of the related policies to the extent that they are considered to be recoverable from unearned premiums, after considering the related anticipated claims and expenses.

(d) PROVISION FOR UNPAID CLAIMS AND ADJUSTMENT EXPENSES

Individual loss estimates are provided on each claim reported. In addition, provisions are made for adjustment expenses, changes in reported claims and for claims incurred but not reported, based on past experience and business in force. The estimates are regularly reviewed and updated, and any resulting adjustments are included in current income.

Claim liabilities are carried on an undiscounted basis.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) LIABILITY ADEQUACY TEST

At each reporting date the company performs a liability adequacy test on its insurance liabilities less deferred policy acquisition expenses to ensure the carrying value is adequate, using current estimates of future cash flows, taking into account the relevant investment return. If that assessment shows that the carrying amount of the liabilities is inadequate, any deficiency is recognized as an expense to the income statement initially by writing off the deferred policy acquisition expense and subsequently by recognizing an additional claims liability for claims provisions.

(f) REINSURERS' SHARE OF PROVISIONS FOR UNPAID CLAIMS AND ADJUSTMENT EXPENSES

The company enters into reinsurance contracts in the normal course of business in order to limit potential losses arising from certain exposures. Reinsurance premiums are accounted for in the same period as the related premiums for the direct insurance business being reinsured. Reinsurance liabilities, comprised of premiums payable for the purchase of reinsurance contracts, are included in accounts payable and accrued liabilities and are recognized as an expense when due.

Expected reinsurance recoveries on unpaid claims and adjustment expenses are recognized as assets at the same time and using principles consistent with the company's method for establishing the related liability.

(g) SALVAGE AND SUBROGATION RECOVERABLE

In the normal course of business, the company obtains the ownership of damaged property, which they resell to various salvage operations. Unsold property is valued at its estimated net realizable value.

Where the company indemnifies policyholders against a liability claim, it acquires rights to subrogate its claim against other parties. These claims are reflected at amounts expected to be received from the subrogated parties net of related costs.

(h) REFUND FROM PREMIUM

At the discretion of the board of directors the company may declare a refund to its policyholders based on the premiums paid in the fiscal period.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

STRUCTURED SETTLEMENTS, FIRE MUTUALS GUARANTEE FUND AND FINANCIAL GUARANTEE CONTRACTS

The company enters into annuity agreements with various life insurance companies to provide for fixed and recurring payments to claimants. Under such arrangements, the company's liability to its claimants is substantially transferred, although the company remains exposed to the credit risk that life insurers fail to fulfill their obligations.

The company is a member of the Fire Mutuals Guarantee Fund ("the Fund"). The Fund was established to provide payment of outstanding policyholders' claims and unearned premium if a member company becomes bankrupt. As a result, the company may be required to contribute assets to their proportionate share in meeting this objective.

These exposures represent financial guarantee contracts. The company accounts for financial guarantee contracts in accordance with IFRS 4, Insurance Contracts.

FINANCIAL INSTRUMENTS

The Company classifies its financial instruments into one of the following categories based on the purpose for which the asset was acquired or liability incurred. All transactions related to financial instruments are recorded on a trade date basis. The company's accounting policy for each category is as follows:

Held-to-maturity financial assets

If the Company has the positive intent and ability to hold debt securities to maturity, then such financial assets are classified as held-to-maturity. Held-to-maturity financial assets are recognized initially at fair value plus any directly attributable transactions costs. Subsequent to initial recognition held-to-maturity financial assets are measured at amortized cost using the effective interest method, less any impairment losses. Any sale or reclassification of a more than insignificant amount of held-to-maturity investments not close to their maturity would result in the reclassification of all held-to-maturity investments as fair value through profit and loss, and prevent the Company from classifying investment securities as held-to-maturity for the current and the following two financial years.

Fair value through profit or loss

The company does not have any instruments that are held for trading purposes; however, management has designated to voluntarily classify its investments at fair value through profit or loss. These instruments are carried at fair value with changes in fair value recognized in comprehensive income. Transaction costs on these instruments are expensed as incurred. Interest on debt securities classified as fair value through profit or loss is calculated using the effective interest method.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

Loans and Receivables

These assets are non-derivative financial assets resulting from the delivery of cash or other assets by a lender to a borrower in return for a promise to repay on a specified date or dates, or on demand. They are initially recognized at fair value plus transaction cost, using the effective interest rate method, less any impairment losses.

Impairment provisions are recognized when there is objective evidence (such as significant financial difficulties on the part of the counterparty or default or significant delay in payment) that the company will be unable to collect all of the amounts due under the terms receivable, the amount of such a provision being the difference between the net carrying amount and the present value of the future expected cash flows associated with the impaired receivable. For amounts due from policyholders and reinsurers, which are reported net, such provisions are recorded in a separate allowance account with the loss being recognized in net income. On confirmation that the amounts receivable will not be collectable, the gross carrying value of the asset is written off against the associated provision.

Other Financial Liabilities

Other financial liabilities include all financial liabilities and comprise accounts payable, and other short-term monetary liabilities. These liabilities are initially recognized at fair value net of any transaction costs directly attributable to the issuance of the instrument and subsequently carried at amortized cost using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the statement of financial position. Interest expense in this context includes initial transaction costs and premiums payable on redemption, as well as any interest or coupon payable while the liability is outstanding.

Fair Values

The fair value of a financial instrument is the amount of consideration that would be agreed upon in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act.

Fair value is best evidenced by quoted bid or ask price, as appropriate, in an active market. Where bid or ask prices are not available, such as an illiquid or inactive market, the closing price of the most recent transaction of that instrument subject to appropriate adjustments as required is used. Where quoted market prices are not available, the quoted prices of similar financial instruments or valuation models with observable market based inputs are used to estimate the fair value. These valuation models may use multiple market inputs, including observable interest rates, foreign exchange rates, index levels, credit spreads, equity prices, counterparty credit quality, and corresponding market volatility levels. Minimal management judgment is required for fair values calculated using quoted market prices or observable market inputs for models. The calculation of estimated fair value is based on market conditions at a specific point in time and may not be reflective of future fair values.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is initially recorded at cost and subsequently measured at cost less accumulated depreciation and accumulated impairment losses, with the exception of land which is not depreciated. Depreciation is recognized in comprehensive income and is provided as follows:

| | |
|--------------------------------|------------------------------|
| Buildings | 4 % declining balance basis |
| Parking lot | 8 % declining balance basis |
| Office furniture and equipment | 20 % declining balance basis |
| Computer hardware | 5 years straight line |
| Computer software | 2 years straight line |

Depreciation methods, useful lives and residual values are reviewed annually and adjusted if necessary.

IMPAIRMENT OF NON-FINANCIAL ASSETS

Non-financial assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, which is the higher of value in use and fair value less costs to sell, the asset is written down accordingly.

For the purpose of assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash-generating unit, which is the lowest group of assets in which the asset belongs for which there are separately identifiable cash flows. The company has two cash-generating units for which impairment testing is performed.

Impairment charges are included in net income, except to the extent they reverse gains previously recognized in other comprehensive income.

FACILITY ASSOCIATION

As a member of the Facility Association, the company records its proportionate share of the Association's revenue, expenses, unearned premiums and provision for unpaid claims.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

INCOME TAXES

Income tax expense comprises of current and deferred tax. Current tax and deferred tax are recognized in net income except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any adjustment to income taxes payable in respect of previous years. Current income taxes are determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting or taxable profit or loss.

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The amount of the deferred tax asset or liability is measured at the amount expected to be recovered from or paid to the taxation authorities. This amount is determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date and are expected to apply when the liabilities/ (assets) are settled/(recovered).

PROVISIONS

Provisions are recognized for liabilities of uncertain timing or amounts that have arisen as a result of past transactions, including legal, equitable or constructive obligations. The provision is measured at the best estimate of the expenditure required to settle the obligation at the reporting date.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

FOREIGN CURRENCY TRANSLATION

Foreign currency accounts are translated into Canadian dollars as follows:

At the transaction date, each asset, liability, revenue, and expense denominated in a foreign currency is translated into Canadian dollars by the use of the exchange rate in effect at that date. At the year-end date, unsettled monetary assets and liabilities are translated into Canadian dollars by using the exchange rate in effect at the year-end date and the related translation differences are recognized in net income. Exchange gains and losses on non-monetary available-for-sale financial assets form part of the overall gain or loss recognized in respect of that financial instrument.

Non-monetary assets and liabilities that are measured at historical cost are translated into Canadian dollars by using the exchange rate in effect at the date of the initial transaction and are not subsequently restated. Non-monetary assets and liabilities that are measured at fair value or a revalued amount are translated into Canadian dollars by using the exchange rate in effect at the date the value is determined and the related translation differences are recognized in net income or other comprehensive income consistent with where the gain or loss on the underlying non-monetary asset or liability has been recognized.

LEASED ASSETS

Where substantially all of the risks and rewards incidental to ownership of a leased asset have been transferred to the company (a "finance lease"), the asset is treated as if it had been purchased outright. The amount initially recognized as an asset is the lower of the fair value of the leased property and the present value of the minimum lease payments payable over the term of the lease. The corresponding lease commitment is shown as a liability. Lease payments are analyzed between capital and interest. The interest element is charged to the statement of comprehensive income over the period of the lease and is calculated so that it represents a constant proportion of the lease liability. The capital element reduces the balance owed to the lessor.

Where substantially all of the risks and rewards incidental to ownership are not transferred to the company (an "operating lease"), the total rentals payable under the lease are charged to the statement of comprehensive income on a straight-line basis over the lease term. The aggregate benefit of lease incentives is recognized as a reduction of the rental expense over the lease term on a straight-line basis.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

STANDARDS, AMENDMENTS AND INTERPRETATIONS NOT YET EFFECTIVE

Certain new standards, amendments and interpretations have been published that are mandatory for the company's accounting period beginning on or after January 1, 2012 or later periods that the company has decided not to early adopt. The standards, amendments and interpretations that will be relevant to the company are:

IFRS 9 Financial Instruments is part of the IASB's wider project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. IFRS 9 retains but simplifies the mixed measurement model and established two primary measurement categories for financial assets, amortized cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. The standard is effective for annual periods beginning on or after January 1, 2013. The company is in the process of evaluating the impact of the new standard.

None of the new standards, interpretations and amendments, which are effective for the company's accounting periods beginning after January 1, 2012 and which have not been adopted early, are expected to have a material effect on the company's future financial statements.

Certain new standards, amendments and interpretations have been published that are mandatory for the company's accounting periods beginning on or after January 1, 2012 or later periods that the company has decided to early adopt. The company has early adopted the amendments to IFRS 1 which replaces references to a fixed date of '1 January 2004' with "the date of transition to IFRSs". This eliminates the need for the company to restate derecognition transactions that occurred before the date of transition to IFRSs. The amendment is effective for year-ends beginning on or after July 1, 2011, however, the company has early adopted the amendment. The impact of the amendment and early adoption is that the company only applies IAS 39 derecognition requirements to transactions that occurred after the date of transition.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

2. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only; or in the period of the change and future periods, if the change affects both.

The estimates and assumptions that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Provision for unpaid claims

The estimation of the provision for unpaid claims and the related reinsurers' share are the company's most critical accounting estimates. There are several sources of uncertainty that need to be considered by the company in estimating the amount that will ultimately be paid on these claims. The uncertainty arises because all events affecting the ultimate settlement of claims have not taken place and may not take place for some time. Changes in the estimate of the provision can be caused by receipt of additional claim information, changes in judicial interpretation of contracts, or significant changes in severity or frequency of claims from historical trends. The estimates are based on the company's historical experience and industry experience. More details are included in Note 6.

Income taxes

The company periodically assesses its liabilities and contingencies related to income taxes for all years open to audit based on the latest information available. For matters where it is probable that an adjustment will be made, the company records its best estimate of the tax liability including the related interest and penalties in the current tax provision. Management believes they have adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

4. INVESTMENTS (continued)

The following table provides an analysis of investments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities using the last bid price;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

| | Level 1 | Level 2 | Level 3 | Total |

Comments and assumptions for specific claims categories

The ultimate cost of long settlement general liability claims are difficult to predict for several reasons. Claims may not be reported until many years after a policy expires. Changes in the legal environment have created further complications. Court decisions and federal and provincial legislation may dramatically increase the liability between the time a policy is written and associated claims are ultimately resolved. For example, liability for exposure to toxic substances and environmental impairment, which did not appear likely or even exist when the policies were written, has been imposed by legislators and judicial interpretation. Tort liability has been expanded by some jurisdictions to cover defective workmanship. Provisions for such difficult-to-estimate liabilities are established by examining the facts of tendered claims and adjusted in the aggregate for ultimate loss expectations based upon historical experience patterns and current socioeconomic trends.

The company must participate in industry automobile residual pools of business, and recognize a share of this business based on its automobile market share. The company records its share of the liabilities provided by the actuaries of the pools.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

6. INSURANCE CONTRACTS (continued)

Claims and adjustment expenses

Changes in claim liabilities recorded in the balance sheet for the years ended December 31, 2011 and 2010 and their impact on claims and adjustment expenses for the two years follow:

| | 2011 | 2010 |
|---|----------------------|----------------------|
| Provision for unpaid claims, beginning of year | \$ 12,126,592 | \$ 11,893,940 |
| Increase (decrease) in estimated losses and expenses, for losses occurring in prior years | 865,349 | 849,579 |
| Provision for losses and expenses on claims occurring in the current year | 6,524,877 | 4,527,162 |
| Payment on claims: | | |
| Current year | (3,081,169) | (2,232,002) |
| Prior years | (4,272,975) | (2,912,087) |
| Provision for unpaid claims, end of the year | \$ 12,162,674 | \$ 12,126,592 |

The change in estimate of losses occurring in prior years is due to changes arising from new information received.

Provision for unpaid claims and adjustment expenses

The determination of the provision for unpaid claims and adjustment expenses and the related reinsurers' share requires the estimation of three major variables which are the development of claims, reinsurance recoveries, and future investment income.

The Superintendent of the Financial Services Commission of Ontario has required that consideration of future investment income be disregarded except in the evaluation of automobile accident benefit claims.

Claim development

The estimation of claim development involves assessing the future behaviour of claims, taking into consideration the consistency of the company's claim handling procedures, the amount of information available, the characteristics of the line of business from which the claim arises and historical delays in reporting claims. In general, the longer the term required for the settlement of a group of claims the more variable the estimates. Short settlement term claims are those which are expected to be substantially paid within a year of being reported.

The tables that follow present the development of claims payments and the estimated ultimate cost of claims for the claim year 2007 to 2011. The upper half of the tables shows the cumulative amounts paid or estimated to be paid during successive years related to each claim year. The original estimates will be increased or decreased, as more information becomes known about the original claims and overall claim frequency and severity.

In 2011, the year of adoption of IFRS, only information from periods beginning on or after January 1, 2007 is required to be disclosed. This is being increased in each succeeding additional year, until ten years of information is included.

| At the end year of claim | \$ 3,495,000 | \$ 4,959,000 | \$ 5,281,000 | \$ 4,595,000 | \$ 7,239,000 | |
| One year later | 3,162,000 | 4,521,000 | 4,387,000 | 4,131,000 | | |
| Two years later | 2,778,000 | 4,394,000 | 4,390,000 | | | |
| Three years later | 3,246,000 | 4,434,000 | | | | |
| Four years later | 3,168,000 | | | | | |
| Current estimate of cumulative claims cost | 3,168,000 | 4,434,000 | 4,390,000 | 4,131,000 | 7,239,000 | |
| Cumulative payments | 3,120,000 | 4,058,000 | 3,853,000 | 3,011,000 | 4,198,000 | |
| Outstanding claims | 48,000 | 376,000 | 537,000 | 1,120,000 | 3,041,000 | 5,122,000 |
| Outstanding claims 2006 and prior | | | | | | 26,000 |
| Total net outstanding claims | | | | | | \$ 5,148,000 |

7. INCOME TAXES

The company is subject to income taxes on that portion of its income derived from insuring other than farm related risks.

The significant components of tax expense included in net income are composed of:

| | 2011 | 2010 |
|--|-------------------|--------------------|
| Current tax expense | | |
| Based on current year taxable income | \$ 120,000 | \$ 238,000 |
| Adjustment for over/under provision in prior periods | (671) | (1,676) |
| | \$ 119,329 | \$ 236,324 |
| Deferred tax expense | | |
| Origination and reversal of temporary differences | \$ (6,755) | \$ (17,915) |
| Reduction in tax rate | (245) | (2,085) |
| | \$ (7,000) | \$ (20,000) |
| Total tax expense | \$ 112,329 | \$ 216,324 |

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

7. INCOME TAXES

Reasons for the difference between tax expense for the year and the expected income taxes based on the statutory tax rate of 21.4% (2010 - 23.3%) are as follows:

| | 2011 | 2010 |
|--|------------|--------------|
| Comprehensive income for the year | \$ 789,322 | \$ 1,391,161 |
| Expected taxes based on the statutory rate of 21.4% (2010 - 23.3%) | 168,915 | 323,862 |
| Income from insuring farm related risks | (41,678) | (90,040) |
| Non deductible portion of claims liabilities | 7,414 | 9,768 |
| Other non taxable income | 2,107 | 1,858 |
| Adjustments related to investments | (15,974) | (14,484) |
| Capital cost allowance in excess of depreciation | (3,758) | 6,414 |
| Over (under) provision in prior years | (671) | (1,676) |
| Other | 2,974 | 622 |
| | \$ 119,329 | \$ 236,324 |

The movement in 2011 deferred income tax assets are:

| | Opening balance at Jan 1, 2011 | Recognize in net income | Recognize in OCI | Recognize directly in equity | Reclassify from equity to net income | Closing at Dec 31, 2011 |
|--------------------------------------|---|-------------------------------|---------------------|------------------------------------|---|-------------------------------|
| 2011 | | | | | | |
| Deferred tax assets | | | | | | |
| Property, plant & equipment | \$ 7,450 | \$ (1,622) | \$ - | \$ - | \$ - | \$ 5,828 |
| Claims liabilities | 43,845 | 8,662 | - | - | - | 52,507 |
| Other | 1,705 | (40) | - | - | - | 1,665 |
| Deferred tax asset | \$ 53,000 | \$ 7,000 | \$ - | \$ - | \$ - | \$ 60,000 |

12. UNUSUAL ITEM

During the prior year, the company participated in a settlement relating to legal actions, which had been commenced in 2009, that had named the company and certain of its officers and directors as defendants. The settlement resolves the litigation relating to the matter and was concluded out of court without admission of liability. The litigation arose out of prior actions of a subsidiary company.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

13. RELATED PARTY TRANSACTIONS

The company entered into the following transactions with key management personnel, which are defined by IAS 24, Related Party Disclosures, as those persons having authority and responsibility for planning, directing and controlling the activities of the company, including directors and management:

| | 2011 | 2010 |
|--|-------------------|-------------------|
| Compensation | | |
| Short-term employee benefits and director's fees | \$ 406,143 | \$ 394,105 |
| Other payments | 43,805 | 10,172 |
| | \$ 449,948 | \$ 404,277 |
| | | |
| Premiums | \$ 53,772 | \$ 57,956 |
| | | |
| Claims paid | \$ 12,866 | \$ - |

Amounts owing to and from key management personnel at December 31, 2011 are \$- (2010 - \$373, January 1, 2010 - \$923) and \$4,874 (2010 - \$5,851, January 1, 2010 - \$4,404) respectively. The amounts are included in accounts payable and accrued liabilities and prepaid expenses and other on the statement of financial position.

14. CAPITAL MANAGEMENT

The company's objectives with respect to capital management are to maintain a capital base that is structured to exceed regulatory requirements and to best utilize capital allocations.

The regulators measure the financial strength of property and casualty insurers using a minimum capital test (MCT). The regulators generally expect property and casualty companies to comply with capital adequacy requirements. This test compares a company's capital against the risk profile of the organization. The risk-based capital adequacy framework assesses the risk of assets, policy liabilities and other exposures by applying various factors. The regulator indicates that the company should produce a minimum MCT of 150%. The MCT for the company at December 31, 2011 was 730% (2010 - 733%). The regulator has the authority to request more extensive reporting and can place restrictions on the company's operations if the company falls below this requirement and deemed necessary.

For the purpose of capital management, the company has defined capital as policyholders' surplus.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

15. FINANCIAL INSTRUMENT RISK MANAGEMENT

INSURANCE RISK MANAGEMENT

The principal risk the company faces under insurance contracts is that the actual claims and benefit payments or the timing thereof, differ from expectations. This is influenced by the frequency of claims, severity of claims, actual benefits paid and subsequent development of long-term claims. Therefore, the objective of the company is to ensure that sufficient reserves are available to cover these liabilities.

The above risk exposure is mitigated by diversification across a large portfolio of insurance. The variability of risks is also improved by careful selection and implementation of underwriting strategy guidelines and loss prevention services, as well as the use of reinsurance arrangements.

The company purchases reinsurance as part of its risks mitigation program. Retention limits for the excess-of-loss reinsurance vary by product line.

Amounts recoverable from reinsurers are estimated in a manner consistent with the outstanding claims provision and are in accordance with the reinsurance contracts. Although the company has reinsurance arrangements, it is not relieved of its direct obligations to its policyholders and thus a credit exposure exists with respect to ceded insurance, to the extent that any reinsurer is unable to meet its obligations assumed under such reinsurance agreements.

The company writes insurance primarily over a twelve month duration. The most significant risks arise through high severity, low frequency events such as natural disasters or catastrophes. A concentration of risk may arise from insurance contracts issued in a specific geographic location since all insurance contracts are written in Ontario.

The company manages this risk via its underwriting and reinsurance strategy within an overall risk management framework. Exposures are limited by having documented underwriting limits and criteria. Pricing of property and liability policies are based on assumptions in regard to trends and past experience, in an attempt to correctly match policy revenue with exposed risk. Automobile premiums are subject to approval by the Financial Services Commission of Ontario and therefore may result in a delay in adjusting the pricing to exposed risk; in this case the company has policies regarding renewal and new business accepted. Reinsurance is purchased to mitigate the effect of the potential loss to the company. Reinsurance is placed with Farm Mutual Reinsurance Plan Inc. (FMRP), a Canadian registered reinsurer.

The company follows a policy of underwriting and reinsuring contracts of insurance which, in the main, limit the liability of the company to an amount on any one claim of \$210,000 (2010 - \$200,000) in the event of a property claim, an amount of \$150,000 (2010 - \$140,000) in the event of an automobile claim and \$200,000 (2010 - \$150,000) in the event of a liability claim. For amounts over the respective limits there is a 10% retention to a specified maximum. The company also obtained reinsurance which limits the company's liability to \$630,000 (2010 - \$600,000) in the event of a series of claims arising out of a single occurrence. In addition, the company has obtained Stop Loss reinsurance which limits the liability for claims occurring in a specific year to 80% of gross net earned premiums for property claims and automobile claims.

The company is exposed to a pricing risk to the extent that unearned premiums are insufficient to meet the related future policy costs. Evaluation is performed regularly to estimate future claims costs, related expenses, and expected profit in relation to unearned premiums. There was no premium deficiency at December 31, 2011 and 2010.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

15. FINANCIAL INSTRUMENT RISK MANAGEMENT (continued)

INSURANCE RISK MANAGEMENT (cont'd)

The risks associated with insurance contracts are complex and subject to a number of variables which complicate quantitative sensitivity analysis. The company's various techniques based on past claims development experience to quantify these sensitivities. This includes indicators such as average claim cost, amount of claims occurrence, expected loss ratios and claims development as described in Note 6.

Results of sensitivity testing based on expected loss ratios are as follows, shown gross and net of reinsurance as impact on pre-tax income:

| | Property claims | | Auto claims | | Liability Claims | |
|---------------------------|-----------------|--------------|--------------|--------------|------------------|-------------|
| | 2011 | 2010 | 2011 | 2010 | 2011 | 2010 |
| 5% increase in loss ratio | | | | | | |
| Gross | \$ 242,975 | \$ 240,383 | \$ 258,202 | \$ 241,469 | \$ 50,521 | \$ 48,758 |
| Net | \$ 185,383 | \$ 184,096 | \$ 151,805 | \$ 143,144 | \$ 29,503 | \$ 26,417 |
| 5% decrease in loss ratio | | | | | | |
| Gross | \$ (242,975) | \$ (240,383) | \$ (258,202) | \$ (241,469) | \$ (50,521) | \$ (48,758) |
| Net | \$ (185,824) | \$ (184,096) | \$ (151,805) | \$ (143,144) | \$ (29,503) | \$ (26,417) |

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

15. FINANCIAL INSTRUMENT RISK MANAGEMENT (continued)

CREDIT RISK

Credit risk is the risk of financial loss to the company if a debtor fails to make payments of interest and principal when due. The company is exposed to this risk relating to its debt holdings in its investment portfolio and the reliance on reinsurers to make payment when certain loss conditions are met.

The company's investment policy puts limits on the bond portfolio including portfolio composition limits, issuer type limits, bond quality limits, aggregate issuer limits, corporate sector limits and general guidelines for geographic exposure. The company's investment policy limits investment in bonds and debentures to only fixed income investments with an A rating or better. All fixed income portfolios are measured for performance on a quarterly basis and monitored by management on a monthly basis.

Reinsurance is placed with Farm Mutual Reinsurance Plan Inc. (FMRP), a Canadian registered reinsurer. Management monitors the creditworthiness of FMRP by reviewing their annual financial statements and through ongoing communications. Reinsurance treaties are reviewed annually by management prior to renewal of the reinsurance contract.

Premiums receivable are short-term in nature consisting of a large number of policyholders, and are not subject to material credit risk. Regular review of outstanding receivables is performed to ensure credit worthiness.

The maximum exposure to investment credit risk is outlined in note 4.

There have been no significant changes from the previous year in the exposure to risk or policies procedures and methods used to measure the risk.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of market factors. Market factors include three types of risk: currency risk, interest rate risk, and equity risk.

The company's investment policy operates within the guidelines of the Insurance Act. An investment policy is in place and its application is monitored by the Board of Directors and the company's management. Diversification techniques are utilized to minimize risk.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

15. FINANCIAL INSTRUMENT RISK MANAGEMENT (continued)

CURRENCY RISK

Currency risk relates to the company operating in different currencies and converting non Canadian earnings at different points in time at different foreign exchange levels when adverse changes in foreign currency exchange rates occur.

The company has no exposure to this risk as no individual investments contained in the portfolio are denominated in a foreign currency.

There have been no significant changes from the previous year in the exposure to risk or policies procedures and methods used to measure the risk.

INTEREST RATE RISK

Interest rate risk is the potential for financial loss caused by fluctuations in fair value or future cash flows of financial instruments because of changes in market interest rates.

The company is exposed to this risk through its interest bearing investments (Bankers Acceptances, T-Bills, GICs, Bonds, and Farm mutual pooled funds - Canadian fixed income).

Historical data and current information is used to profile the ultimate claims settlement pattern by class of insurance, which is then used in a broad sense to develop an investment policy and strategy. However, because a significant portion of the company's assets relate to its capital rather than liabilities, the value of its interest rate based assets exceeds its interest rate based liabilities. As a result, generally, the company's investment income will move with interest rates over the medium to long-term with short-term interest rate fluctuations creating unrealized gain or losses in other comprehensive income. There are no occurrences where interest would be charged on liabilities; therefore, little protection is needed to ensure the fair market value of assets will be offset by a similar change in liabilities due to an interest rate change.

At December 31, 2011, a 1% move in interest rates, with all other variables held constant, could impact the market value of bonds by \$560,000 (2010 - \$525,000). These changes would be recognized in comprehensive income. A similar move in rates could impact the market value of the Canadian fixed income farm mutual pooled fund by \$235,000 (2010 - \$230,000).

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

15. FINANCIAL INSTRUMENT RISK MANAGEMENT (continued)

EQUITY RISK

Equity risk is the uncertainty associated with the valuation of assets arising from changes in equity markets. The company is exposed to this risk through its equity holdings within its investment portfolio.

The company's portfolio includes Canadian equities with fair values that move with the Toronto Stock Exchange Composite Index and United States equities with fair values that move with the S&P 500 index. At December 31, 2011 a 10% movement in the stock markets with all other variables held constant would have an estimated affect on the fair values of the company's Canadian common and United States common of \$415,000 (2010 - \$430,000). This change would be recognized in comprehensive income.

The company's investment policy limits investment in preferred and common shares to a maximum of 25% of the market value of the portfolio and is restricted to equities which are contained in the S&P/TSX Index.

Equities are monitored by the investment committee and holdings are adjusted following each quarter if the investments are offside of the investment policy.

LIQUIDITY RISK

Liquidity risk is the risk that the company will not be able to meet all cash outflow obligations as they come due. The company mitigates this risk by monitoring cash activities and expected outflows. The company's current liabilities arise as claims are made. The company does not have material liabilities that can be called unexpectedly at the demand of a lender or client. The company has no material commitments for capital expenditures and there is no need for such expenditures in the normal course of business. Claim payments are funded by current operating cash flow including investment income.

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods to measure the risk.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

16. FIRST TIME ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS

IFRS 1, First Time Adoption of International Financial Reporting Standards, requires that comparative financial information be provided. As a result, the first date at which the company has applied IFRS was January 1, 2010 (the "Transition Date"). IFRS 1 requires first-time adopters to retrospectively apply all effective IFRS standards as of the reporting date, which for the company will be December 31, 2011. Therefore, the financial statements for the year ended December 31, 2011, the comparative information presented in these financial statements for the year ended December 31, 2010 and the opening IFRS statement of financial position at January 1, 2010 are prepared in accordance with IFRS standards effective at the reporting date. However, IFRS also provides for certain optional exemptions and certain mandatory exceptions for first time IFRS adopters.

In preparing its opening IFRS statement of financial position, the company has adjusted amounts reported previously in financial statements prepared in accordance with pre-changeover Canadian GAAP. An explanation of how the transition from pre-changeover Canadian GAAP to IFRS has affected the company's financial position, financial performance and cash flows is set out in the following notes and tables.

IFRS 1 EXEMPTIONS AND EXCEPTIONS

The IFRS 1 applicable exemptions and exceptions applied in the conversion from pre-changeover Canadian GAAP to IFRS are as follows:

OPTIONAL EXEMPTIONS

INSURANCE CONTRACTS

The company has elected to apply the transitional provisions of IFRS 4, Insurance Contracts. IFRS 4 restricts the changes in accounting policies for insurance contracts.

DESIGNATION OF PREVIOUSLY RECOGNIZED FINANCIAL INSTRUMENTS

The company elected to designate certain previously recognized financial instruments as fair value through profit and loss at the transition date. These designations may differ from the financial instrument designation under pre-changeover Canadian GAAP.

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

16. FIRST TIME ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS (continued)

MANDATORY EXCEPTIONS

DERECOGNITION OF FINANCIAL ASSETS AND LIABILITIES

The company has applied the derecognition requirements in IAS 39, Financial Instruments: Recognition and Measurement, prospectively from the Transition Date. As a result any non-derivative financial assets or non-derivative financial liabilities derecognized prior to the Transition Date in accordance with pre-changeover Canadian GAAP have not been reviewed for compliance with IAS 39.

ESTIMATES

The estimates previously made by the company under pre-changeover Canadian GAAP were not revised for the application of IFRS except where necessary to reflect any difference in accounting policy or where there was objective evidence that those estimates were in error. As a result the company has not used hindsight to review estimates.

RECONCILIATION OF POLICYHOLDERS' SURPLUS AND COMPREHENSIVE INCOME

In preparing these financial statements, management has amended certain accounting policies previously applied in the pre-changeover Canadian GAAP financial statements to comply with IFRS. The comparative figures for 2010 were restated to reflect these adjustments. The following reconciliation and explanatory notes provide a description of the effect of the transition from pre-changeover Canadian GAAP to IFRS on policyholders' surplus, net income and comprehensive income:

TOWN & COUNTRY MUTUAL INSURANCE COMPANY

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2011

16. FIRST TIME ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS (continued)

STATEMENT OF CASH FLOWS FOR THE YEAR ENDED DECEMBER 31, 2010

The transition to IFRS had no impact on total operating or financing activities on the statement of cash flows. The change in net income for year ended December 31, 2010 has been offset by adjustments to operating activities.

EXPLANATIONS FOR THE ADJUSTMENTS ARE AS FOLLOWS:

(i) INVESTMENTS

Under pre-changeover Canadian GAAP the company classified the majority of its investments as available-for-sale. The company elected to designate certain previously recognized financial instruments as fair value through profit and loss at the Transition date and as a result investments which were previously classified as available-for-sale have now been designated fair value through profit and loss. The change in classification of these investments has no impact on the amount recognized on the statement of financial position, however, unrealized gains (losses) of \$81,763 at January 1, 2010 have been reclassified from accumulated other comprehensive income to policyholders' surplus. For the year ended December 31, 2010 the change in unrealized gains (loss) on available-for-sale investments and the reclassification of realized gains (losses) on available-for-sale investments have been adjusted by \$434,221 and \$(21,461) respectively, with corresponding adjustments of \$515,760 to investment and other income and \$103,000 to the provision for income taxes as a result of the change in classification of these financial instruments.

(ii) DUE TO REINSURER

Under pre-changeover Canadian GAAP the company included all amounts due from FMRP as due from reinsurer. This balance included both the amounts paid out on claims that were over retention and thus owing from FMRP and also the reinsurer's share of provision for unpaid claims. Under IFRS the classifications will now be separate on the statement of financial position. There is no effect of the statement of comprehensive income for this change in classification.
